March Unemployment Rates Little Changed in Michigan's Regional Labor Markets

Lansing – Seasonally unadjusted unemployment rates in March were relatively flat in the state's 17 major labor market areas, according to the Michigan Department of Technology, Management & Budget. Total employment and labor force levels were down slightly in the majority of regions over the month.

"Michigan's various local labor markets were very stable from February to March," said Jason Palmer, director of the Bureau of Labor Market Information & Strategic Initiatives. "Over the year, ten of the state's 14 metropolitan regions reported solid job growth of 1.0 percent or greater, while seven of those metro areas displayed significant job gains of 2.0 percent or above."

During March, unemployment rate changes were minimal, with increases and decreases limited to 0.2 of a percentage point or less in the 17 regions. Jobless rates increased in eight areas, declined in three regions, and were unchanged in the remaining six areas. The minor jobless rate reductions were posted in the Niles-Benton Harbor, Flint, and Monroe Metropolitan Statistical Areas (MSAs). In March, nine of Michigan's 17 major regions displayed unemployment rates below the national non-seasonally adjusted rate of 5.1 percent.

Unemployment Rates Fall Over Year

Since March 2015, jobless rates declined in all of the state's major labor markets. Over-the-year rate reductions ranged from -0.6 to -1.2 percentage points with a median drop of -0.9 of a percentage point. The largest unemployment rate decrease over this period was recorded in the Flint MSA (-1.2), while five other regions registered rate drops of a full percentage point.

Total Employment Down Over Month, Up Over Year

From February to March, total employment declined in 11 regions. Reductions were mostly minor, ranging from -0.1 to -0.7 percent with a median decrease of only -0.2 percent. The largest employment declines in March were recorded in the Upper Peninsula along with the Lansing-East Lansing and Midland MSAs. Four regions showed essentially no change in total employment over the month, while the Detroit-Warren-Dearborn and Muskegon MSAs registered gains.

Since March 2015, total employment rose significantly in all 17 regions, recording a solid 2.3 percent median advance. The largest percentage gains over this period were recorded in the Ann Arbor and the Detroit-Warren-Dearborn MSAs.

Note: Labor force, employment, and unemployment data for all 12 months of 2015 have been recently revised. Payroll job data by industry was revised for 2014 and 2015; and in some cases back to 1990. Estimates for January, February, and March 2016 are not comparable to previously released data. For newly revised estimates, go to www.michigan.gov/lmi or call 313-456-3090.

(more)

Labor Force Levels Down Over Month, Up Over Year

From February to March, workforce levels declined slightly in ten areas, increased in four, and were essentially unchanged in the remaining three regions. Decreases were limited to -0.5 percent or less, while the largest labor force gain over the month was posted in the Detroit-Warren-Dearborn MSA.

Since March 2015, labor force levels advanced in 15 areas with a median gain of 1.5 percent, and declined in the Jackson MSA and the Upper Peninsula.

March Payroll Jobs Up As a Number of Sectors Report Moderate Gains

The monthly survey of employers indicated that seasonally unadjusted payroll jobs in Michigan increased by 17,000 or 0.4 percent in March to 4,267,000. March payroll job gains were recorded in about half the state's major industry sectors, while the remaining sectors were little changed. Moderate over-the-month increases were posted in construction (+4,000), professional and business services (+4,000), leisure and hospitality services (+4,000), and government (+4,000). Education and health services added 2,000 jobs in March.

From February to March, payroll jobs rose in 13 of the state's 14 metropolitan regions, with a median increase of 0.7 percent. The largest over-the-month percentage gains were recorded in the Ann Arbor (+1.0%), Saginaw (+1.0%), and Monroe (+0.9%) MSAs. Overall payroll jobs declined slightly in the Bay City MSA in March. Nearly all metro regions in the state registered over-the-month job advances in construction and leisure and hospitality services.

From March 2015 to March 2016, seasonally unadjusted payroll jobs rose statewide by 93,000 or 2.2 percent. Nearly all major sectors in the state posted job additions over this period, with the largest percentage gains recorded in construction (+4.3%), financial activities (+3.9%), professional and business services (+3.3%), other services (+3.1%), manufacturing (+3.0%), and leisure and hospitality services (+3.0%).

Since March 2015, payroll jobs rose in 12 of the 14 metropolitan regions of the state, with a median job gain of 2.2 percent. The largest over-the-year percentage increases were displayed in the Ann Arbor, Kalamazoo-Portage, and Saginaw MSAs. Payroll jobs were down over the year in the Jackson MSA, while job levels were essentially unchanged in the Midland MSA over this period.

County Jobless Rates Little Changed Over Month, Down Over Year

Just over half of Michigan's 83 counties recorded slight jobless rate increases over the month, while 20 counties posted very minor declines. The rates in the remaining 20 counties were unchanged in March. The vast majority of Michigan's counties recorded rate changes of only plus or minus 0.2 of a percentage point or less over the month.

Since March 2015, jobless rates fell in all 83 counties, with a median reduction of -0.9 of a percentage point.

*Note: Data in this release is **not seasonally adjusted**. As a result, employment and unemployment trends may differ from previously released Michigan seasonally adjusted data. A breakdown of seasonally unadjusted March workforce estimates for Michigan and its 17 major labor market areas follows, along with a listing of county jobless rates for March.*

Note to Editors: Please ensure that the source for state unemployment rates reads "Michigan Department of Technology, Management & Budget."
