# August Jobless Rates Decline Seasonally in Nearly All of Michigan's Regional Labor Markets

Lansing – Seasonally unadjusted unemployment rates in August fell seasonally in 16 of the state's 17 major labor market areas, according to the Michigan Department of Technology, Management & Budget. Total employment change was mixed throughout the various areas, while workforce levels declined in the majority of regions over the month.

"The monthly jobless rate reductions throughout the state's local regions were typical for August," said Jason Palmer, director of the Bureau of Labor Market Information & Strategic Initiatives. "Unemployment rates rose in the majority of areas over the year, but the increases were marginal. Jobless rates in both 2016 and 2017 throughout Michigan local regions have been very low relative to historical standards."

Between July and August, unemployment rates declined in 16 regions, while the rate in the Detroit-Warren-Dearborn Metropolitan Statistical Area (MSA) was unchanged. The jobless rate decreases ranged from 0.3 to 0.7 of a percentage point with a moderate median reduction of 0.4 of a percentage point. The largest over-the-month rate cuts were posted in the Flint (-0.7), Ann Arbor (-0.6) and Monroe (-0.6) MSAs. In August, major labor market area unemployment rates in Michigan ranged from 3.8 to 6.3 percent. The August Michigan non-seasonally adjusted jobless rate was 4.6 percent, which was similar to the national 4.5 percent rate.

#### Unemployment Rates Increase Slightly Over Year

Since August 2016, jobless rates edged upward in 13 regions. Rate advances ranged from 0.1 to 0.5 of a percentage point, with a modest median uptick of 0.3 of a percentage point. The largest over-the-year increases of a half percentage point were recorded in the Monroe and Lansing-East Lansing MSAs. Rates were unchanged over the year in the Ann Arbor and Jackson MSAs along with the Upper Peninsula. The unemployment rate in the Detroit-Warren-Dearborn MSA declined over this period.

#### Total Employment Mixed Over Month, Down Over Year

From July to August, total employment went down in nine regions, rose moderately in seven areas, and was essentially unchanged in the Bay City MSA. Decreases were mostly minor with a median reduction of 0.4 percent. The largest employment cuts were registered in the Northwest Lower Michigan region (-1.5%), the Midland MSA (-1.5%), and the Northeast Lower Michigan region (-0.8%). Employment gains since July in the seven areas were small, ranging from 0.1 to 0.3 percent.

Since August 2016, total employment fell in 11 regions with reductions ranging from 0.1 to 2.0 percent and a median drop of 0.8 percent. The most pronounced over-the-year declines were reported in the Midland (-2.0%) and Bay City (-1.8%) MSAs along with the Upper Peninsula (-1.4%). Employment rose over this period in five regions, with the largest gains displayed in the Detroit-Warren-Dearborn, Ann Arbor, and Grand Rapids-Wyoming MSAs. Total employment was essentially unchanged over the year in the Kalamazoo-Portage MSA.

#### Labor Force Levels Down Over Month, Year

During August, workforce levels fell seasonally in 16 regions from the typical July peak, with a median reduction of 0.8 percent. The Northwest Lower Michigan region (-1.9%), the Midland MSA (-1.7%), and the Northeast Lower Michigan region (-1.2%) were on the high end of the monthly declines. The Detroit-Warren-Dearborn MSA posted a minor over-the-month workforce gain.

Since August 2016, workforce levels fell in ten areas and rose in seven. The median over-the-year change for all areas was 0.6 percent. The leading labor force reductions over this period occurred in the Midland MSA (-1.7%), the Upper Peninsula (-1.4%), and the Bay City MSA (-1.3%), while the biggest gains were posted in the Ann Arbor (+1.3%), Grand Rapids-Wyoming (+0.8%), and Monroe (+0.7%) MSAs.

#### August Payroll Jobs Up Slightly

The monthly survey of employers indicated that seasonally unadjusted payroll jobs in Michigan edged up by 7,000 in August to 4,391,000. The only notable August job changes occurred in *Manufacturing* (+9,000), *Education and health services* (-4,000), and *Leisure and hospitality services* (-3,000).

The gain in *Manufacturing* jobs reflected recall activity from the July vacation shutdown/retooling period in the state's auto industry, while the job reduction in *Leisure and hospitality services* was also seasonal as the state's summer tourism season began to wind down.

In August, payroll job changes within the state's 14 major metropolitan areas were mixed and little changed. Eight regions recorded payroll job gains over the month ranging from 0.1 to 0.7 percent with a median advance of only 0.4 percent. The largest August job gains on a percentage basis were posted in the Battle Creek (+0.7%), Bay City (+0.6%), and Niles-Benton Harbor (+0.5%) MSAs. Payroll jobs declined in six metro regions, with the largest reduction shown in the Midland MSA (-1.6%). The remaining decreases were 0.4 percent or less.

Since August 2016, seasonally unadjusted payroll jobs rose statewide by 74,000 or 1.7 percent. Twelve of Michigan's 14 major metropolitan regions recorded job gains over the year led by the Ann Arbor (+3.2%), Grand Rapids-Wyoming (+2.5%), and Detroit-Warren-Dearborn (+2.3%) MSAs. Job reductions over the year were registered in the Bay City (-1.4%) and Midland (-0.5%) MSAs.

#### County Jobless Rates Down Over Month, Up Over Year

Eighty of Michigan's 83 counties displayed unemployment rate reductions in August, showing a median rate decline of a half percentage point. Jobless rates inched up over the month by 0.1 of a percentage point in both Livingston and Oakland counties, while the rate in Macomb County was unchanged.

Since August 2016, unemployment rates rose slightly in 61 Michigan counties. Increases were very small in the vast majority of counties, with a median advance of only 0.3 of a percentage point. Jobless rates declined in 18 counties over the year, while the rates in four counties were unchanged.

Note: Data in this release is **not seasonally adjusted**. As a result, employment and unemployment trends may differ from previously released Michigan seasonally adjusted data. A breakdown of seasonally unadjusted August workforce estimates for Michigan and its 17 major labor market areas follows, along with a listing of county jobless rates for August.
